

It's important gentlemen and ladies not to violate the First Amendment rights of satellite radio by paying heed to the big money lobby (NAB) that is trying to prohibit the broadcast of various programming via satellite radio. Please do not let big money and a big lobby influence your decision. I have faith in our government and its agencies that in the end the common man and his/her rights will be respected and looked after.

Thank you for your consideration in this important decision.

You know all the details and what's right.....we the listeners are counting on all of you!

Thanks again!!
